Procedure

Before class

1. You need two simple materials: A blow-up water ball in a light colour because you are going to write on it with a permanent pen.
2. Write down about 20 questions you would like to ask your students all over the ball.

In class

3. Tell the students to form a circle facing the centre, so that they can throw the ball to one another.
4. The student that receives the ball answers the question next to his/her left thumb.
5. Repeat step 4 till most of the questions have been answered.

Tip

This activity can be used to **revise** or **assess** a unit or to activate **prior knowledge**.
